## ARNON NEIYSOONGNOEN

Cheese Arnon 1986 Thailand

"I started getting into the art scene through graffiti. I studied drawing on my own since I didn't attend an art institution. My artistic approach comes from studying various art forms and blending different styles in my work. In the future, I want to present my work in various formats and delve deeper into studying different art styles."

The character of the fox symbolizes the ability to adapt well in any situation, no matter how dire. Regardless of how villainous the circumstances may be, the fox can still survive. Therefore, I praise the fox as the main character in my story, as it truly reflects my own identity. It hasn't been easy to come to this point. It has taken time, perseverance, and resilience. I am grateful to everyone who loves this fox character.
